

Sanjay Kumar S

Java Full Stack Developer

PROFESSIONAL SUMMARY:

Software Engineer with 3+ years of experience in Java application development, full-stack development, networking, cloud technologies, and PLM solutions. Proficient in Java, Spring Boot, REST APIs, Microservices, React, JavaScript, and SQL, with hands-on experience in enterprise application development, system integration, debugging, and testing. Experienced in delivering scalable software solutions across e-commerce, networking, PLM, and cloud-based applications.

TECHNICAL SKILLS & TOOLS USED:

- **Backend:** Java, J2EE, Spring Boot, Spring Security, REST APIs, Microservices
- **Frontend:** React, JavaScript, HTML5, CSS3
- **Databases:** SQL, MySQL
- **Cloud & DevOps:** AWS, Docker, Jenkins, Git, GitLab
- **Enterprise Platforms:** ENOVIA PLM 3DEXPERIENCE, Oracle Fusion Cloud, Nokia NSP/NFMP
- **Development & API Tools:** Postman, Android Studio
- **AI & Automation:** n8n, ChatGPT, Lovable, Antigravity

Communication Languages:

- English, Tamil, Kannada, Hindi, Telugu and Malayalam.

EXPERIENCE:

Epicure AI LABS | Senior Software Engineer [June 2026 – Present]

- Report directly to the CEO of an AI-focused startup, contributing to the development and scaling of **HRMS and clinical software products**.
- Leverage AI-assisted development tools such as **Antigravity and GitHub Copilot** to accelerate development, improve code quality, and enhance engineering productivity.
- Lead application development and testing activities while collaborating with stakeholders to **analyze, refine, and implement business requirements**.
- Develop cost-effective **AI agents and automated workflows** using n8n, Antigravity, and modern AI frameworks to automate business processes.

Technologies:

React, JavaScript, CSS, Python, n8n, ChatGPT, Google Cloud, AWS, Lovable, Antigravity, Android Studio

Website: <https://sanjay-kumar-s.netlify.app/>

Education:

B.E | Computer Science & Engineering
S.J.C. Institute of Technology
[2018 – 2022] | **CGPA: 7.27**

Soft Skills:

- Productivity & Time Management.
- Problem-Solving & Creativity.
- Leadership & Team Management.
- Communication & Collaboration.
- Presentation Skills.
- Decisiveness

Worked as:

- Gen AI Developer,
 - Java J2EE developer,
 - Enovia PLM developer,
 - Networking Java enterprise developer
 - Java full stack developer.
-

Awards:

- 'Best Team' for outstanding teamwork among several projects in the Q4 under the i4.0 Practice in Wipro.
 - 'Habit Flagbearer-Being Responsive' in two projects for demonstrating a positive attitude, adaptability to roles, responsiveness, supportiveness, and consistent performance throughout the projects in Wipro.
-

EXPERIENCE:

Project Engineer L2

Wipro Limited, Bangalore [MAY 2022 – July 2025]

JFS Programme | MAR 2025 – MAY 2025

- Developed a scalable full-stack e-commerce application using **Java, Spring Boot, React, and MySQL**, supporting product browsing, cart operations, user profiles, and order management.
- Designed REST APIs and integrated **Spring Data JPA with MySQL** for efficient data persistence and retrieval.
- Implemented **Spring Security and JWT-based RBAC** for secure authentication and authorization.
- Built a responsive frontend using **React and Tailwind CSS**, featuring product search, dynamic cart updates, and user authentication.

Technologies: Java, Spring Boot, Spring Security, Spring Data JPA, React, MySQL, Microservices, Docker, AWS

Nokia-WFM | Bharti Airtel NLD & Vodafone International

Apr 2024 – Feb 2025

- Developed requirements based on **High-Level Design (HLD)** specifications for mission-critical networking phases and led a team of three engineers in KT sessions and configuration development.
- Integrated backend services with **Nokia Network Services Platform (NSP)** to automate workflow management.
- Analyzed complex payloads, performed logical debugging, and delivered high-quality modules with minimal defects.
- Supported development and testing activities through JIRA-based tracking and organized weekly KT sessions to improve team knowledge.

Technologies: Java, J2EE, Microservices, Nokia NSP, Nokia NFMP, React, JavaScript, Spring Security, JIRA, Postman

Nokia-PDM | Jun 2023 – Mar 2024

- Gathered and documented client requirements and worked with **Oracle Fusion Cloud Applications** to manage items and generate reports, completing assigned tasks with **98% accuracy**.
- Assisted with unit testing using **REST APIs and ENOVIA PLM 3DEXPERIENCE** and contributed to technical documentation and project deliverables.

Technologies: Java, Spring Boot, Oracle Fusion Cloud, ENOVIA PLM, REST APIs, Confluence, JIRA

Chevron | May 2022 – Jun 2023

- Supported development activities involving **JPO file merging, MQL queries, search optimization, attribute configuration, and code migration** in the test environment.
- Performed manual testing using **ENOVIA PLM**, identifying **100+ defects** and developing test plans to improve product quality and reliability.

Technologies: Java, J2EE, ENOVIA PLM, TCL, MQL, JSON, JIRA
